

Multi-Purpose Bracket Specification

V1.0

Servo Bracket

Product Introduction :

The Servo Bracket is used to secure the Servo. It is easier to work with other brackets to assemble the desired configurations.

Scope of Application :

- It can secure the Servo to various devices.
- It can be used with other brackets to assemble the desired configurations.

Product Features :

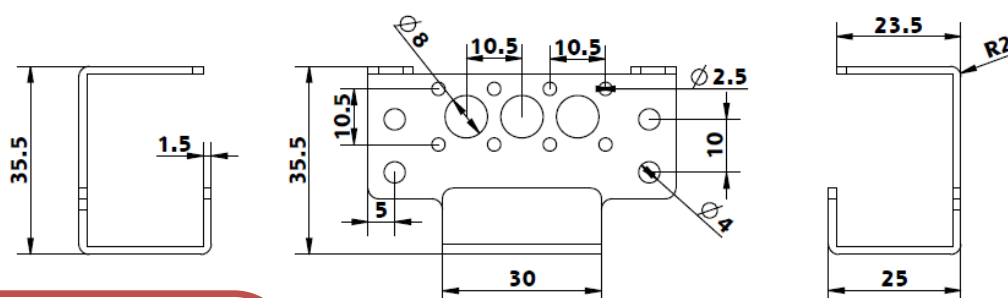

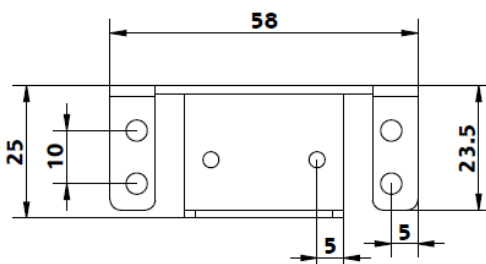

- Changeable and versatile configurations.
- Light in weight.

Specifications :

- Material : Aluminum
- Weight : 10g \pm 0.5g

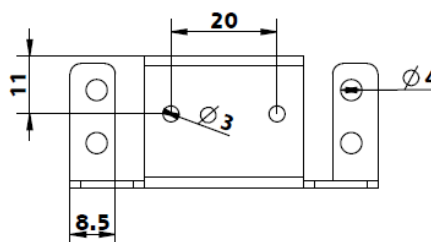

Model Number :

- Black : DA01001
- Gold : DA01004
- Red : DA01008

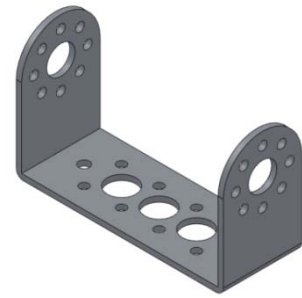

Important :

- ⓘ When purchasing, confirm that the dimensions meet the requirement.
- ⓘ During use, do not exert excessive force to prevent the Bracket from deforming.

Unit : mm

Short-Size U-shape Bracket

Product Introduction :

The Short-size U-shape Bracket is suitable for various kinds of configurations to provide an innovative, modifiable and expandable construction.

Scope of Application :

- It can be combined with various kinds of configurations.
- It can be used with other brackets to assemble the desired configuration.

Product Features :

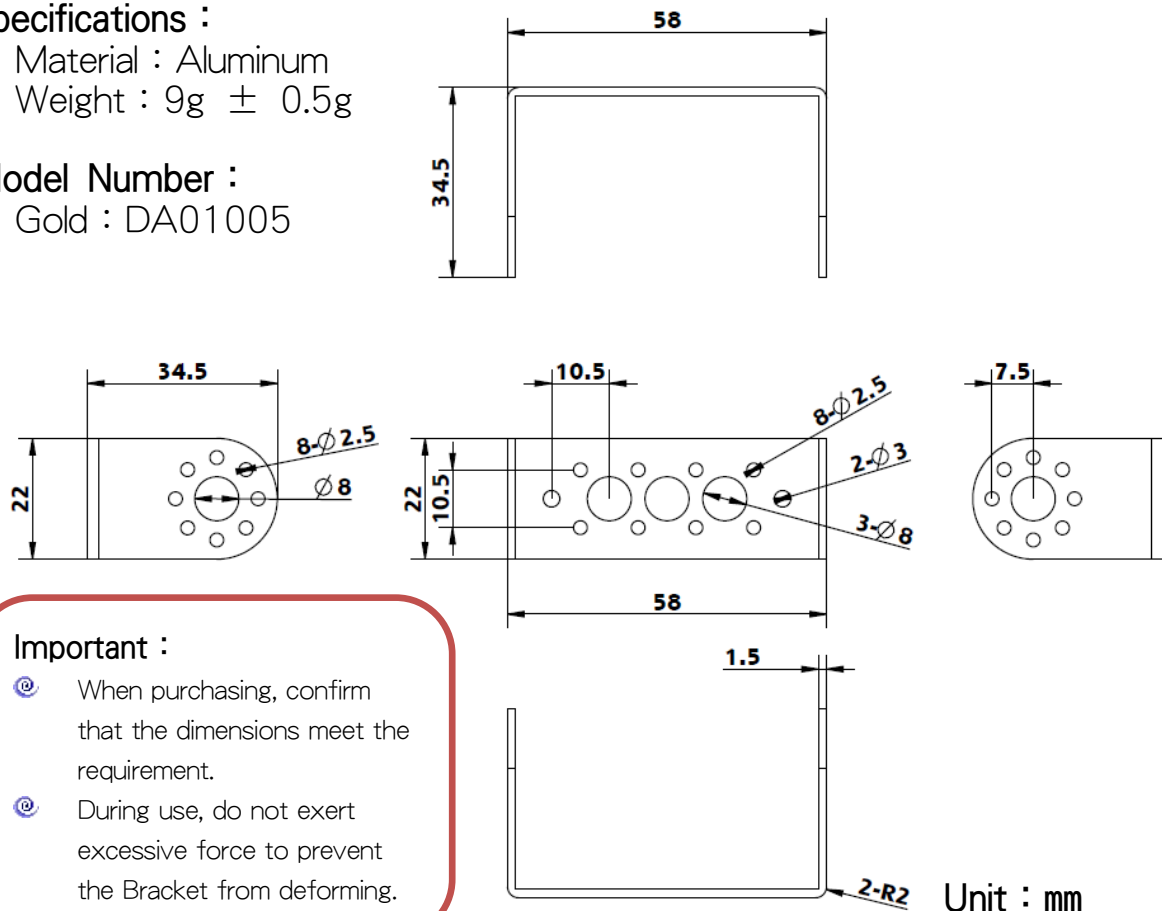

- Changeable and versatile configuration.
- Light in weight.

Specifications :

- Material : Aluminum
- Weight : 9g \pm 0.5g

Model Number :

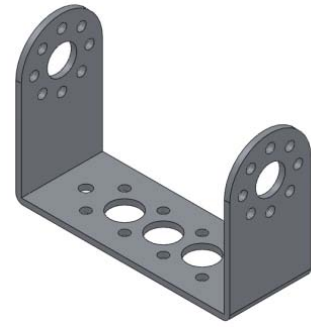

- Gold : DA01005

Important :

- Ⓢ When purchasing, confirm that the dimensions meet the requirement.
- Ⓢ During use, do not exert excessive force to prevent the Bracket from deforming.

Medium-size U-shape Bracket

Product Introduction :

The Medium-size U-shape Bracket is suitable for various kinds of configurations to provide an innovate, modifiable and expandable construction.

Scope of Application :

- It can be combined with various kinds of configurations.
- It can be used with other brackets to assemble the desired configuration.

Product Features :

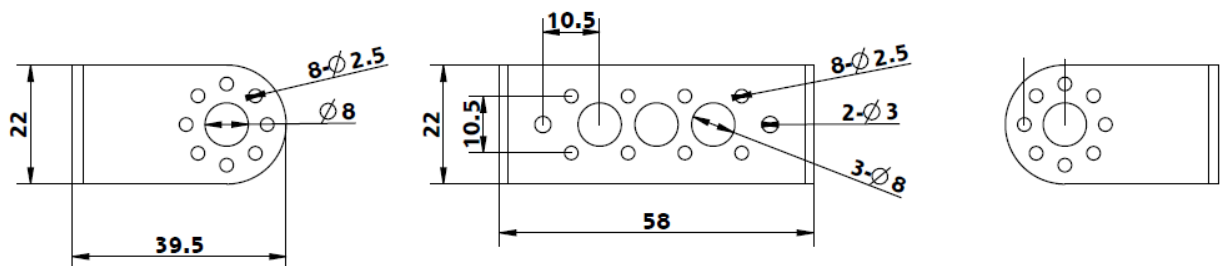

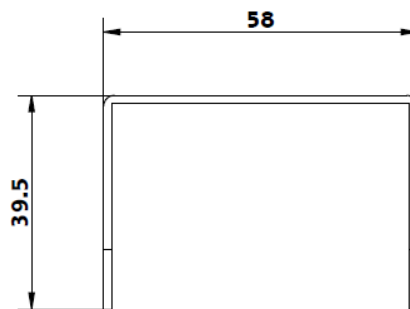

- Changeable and versatile configuration.
- Light in weight.

Specifications :

- Material : Aluminum
- Weight : 9.5g \pm 0.5g

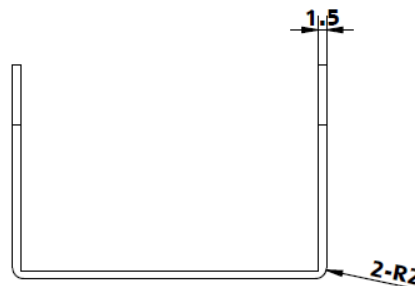

Model Number :

- Black : DA01002
- Gold : DA01006

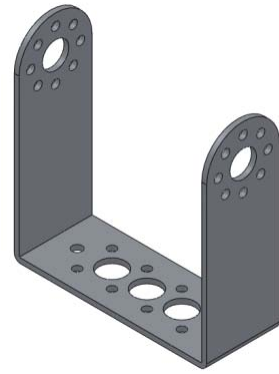

Important :

- Ⓢ When purchasing, confirm that the dimensions meet the requirement.
- Ⓢ During use, do not exert excessive force to prevent the Bracket from deforming.

Unit : mm

Long-size U-shape Bracket

Product Introduction :

The Long-size U-shape Bracket is suitable for various kinds of configurations to provide an innovative, modifiable and expandable construction.

Scope of Application :

- It can be combined with various kinds of configurations.
- It can be used with other brackets to assemble the desired configuration.

Product Features :

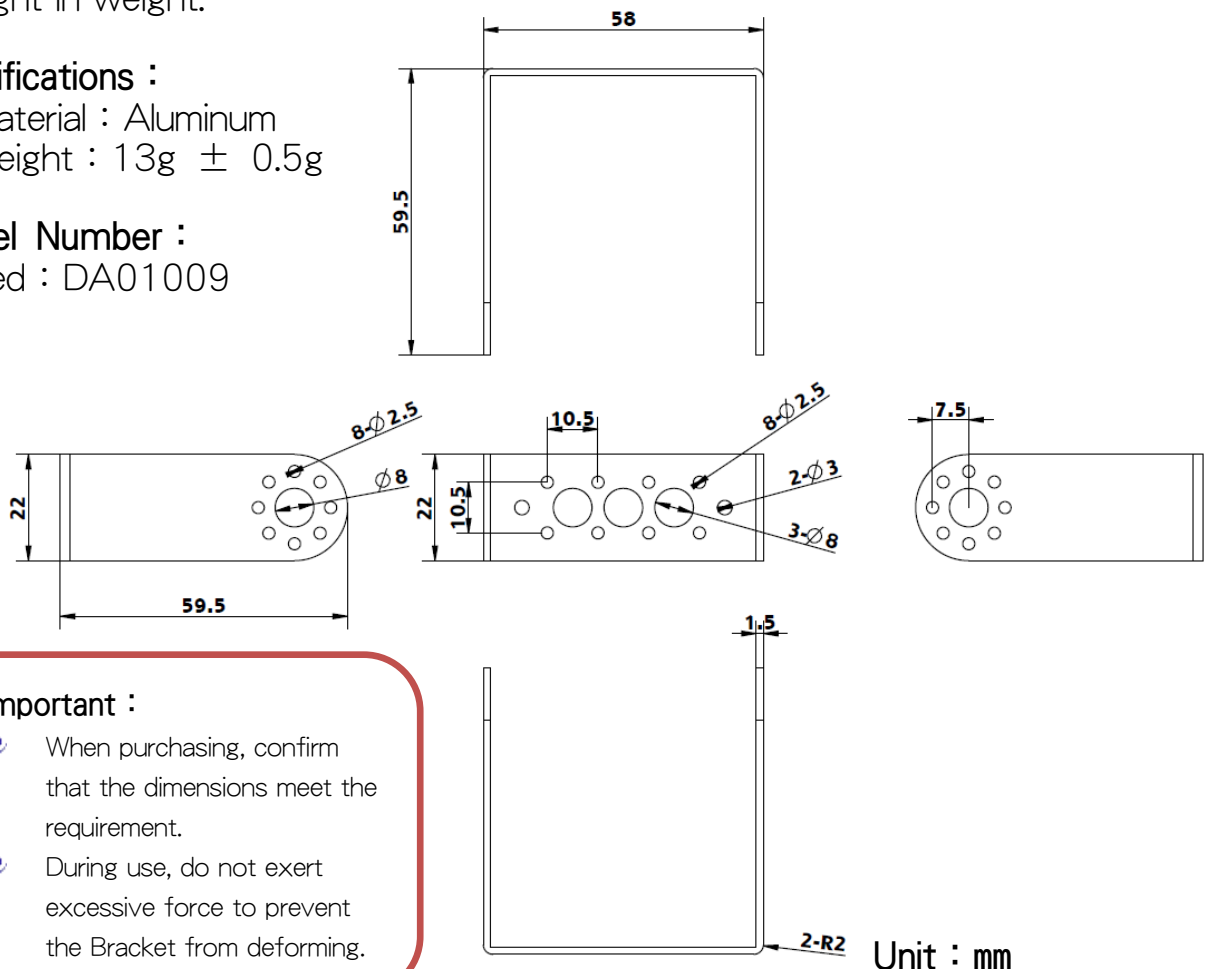

- Changeable and versatile configuration.
- Light in weight.

Specifications :

- Material : Aluminum
- Weight : 13g \pm 0.5g

Model Number :

- Red : DA01009

Important :

- Ⓢ When purchasing, confirm that the dimensions meet the requirement.
- Ⓢ During use, do not exert excessive force to prevent the Bracket from deforming.
